## 1.0 PURPOSE

It has come to Dart's attention that on some AS 350 aircraft, the D350-833-013/-015LXX Dome Light Air Vent may not completely cover the cutout in the ceiling panel. The purpose of this Dart Service Instruction (DSI) is to amend Installation Instructions GA129-2 and Instructions for Continuing Airworthiness ICA129-2 to add the D5447-1LXX Mounting Plate to cover any small gaps around the D350-833-013/-015LXX Dome Light Air Vent.

## 2.0 PROCEDURE

The D5447-1LXX Mounting Plate installs between the D4888-041/D4858-041LXX Dome Light Air Vent Assy and the aircraft ceiling panel utilizing the same fasteners as the standard installation. Operators may trim the D5447-1LXX Mounting Plate, as required. It is acceptable to use longer installation fasteners of the same base P/N, if required.
